2 December 2003

Dear Nick

I put off writing to thank you and your team at Deuce Racing for being such good fellows in our venture with TEAM TA. I had hoped to coincide with a positive outcome on my senior colleagues' decision about next year. Sadly, I have just heard that the decision has been taken not to continue with the STEALTH CAR. I very much regret this but alas I must live with the decision.

As the TEAM TA lead, I could not be more pleased with the outcome of our year associated with Deuce. We were given every opportunity to show off the Army and the TA to a huge, and appreciative audience. This was both in the flesh and across the air waves, indeed our feedback is that we reached in order of 27m viewers. All of this was on the back of huge support from you personally and from your most helpful and cooperative team. TEAM TA certainly added value for us and I just hope that we added value at Deuce.

Our almost final act became known as Exercise STEALTH CAR RAMBLE which saw the STEALTH CAR being pulled by folks from here and across the TA, and it was a huge success. We raised £1500 for Children in Need whilst gaining the Regional and National BBC TV coverage we sought. In addition the local newspapers all ran the story as did the local radio stations - this was both live and recorded. Please accept my gratitude and that of TEAM TA for giving the venture so much support.

I have just heard from Peter that the sad news has got through already as I am delighted that he has brokered the use of the Showcar for a tad longer - most helpful.

*See you on Saturday evening
Kind Regards Peter White*
